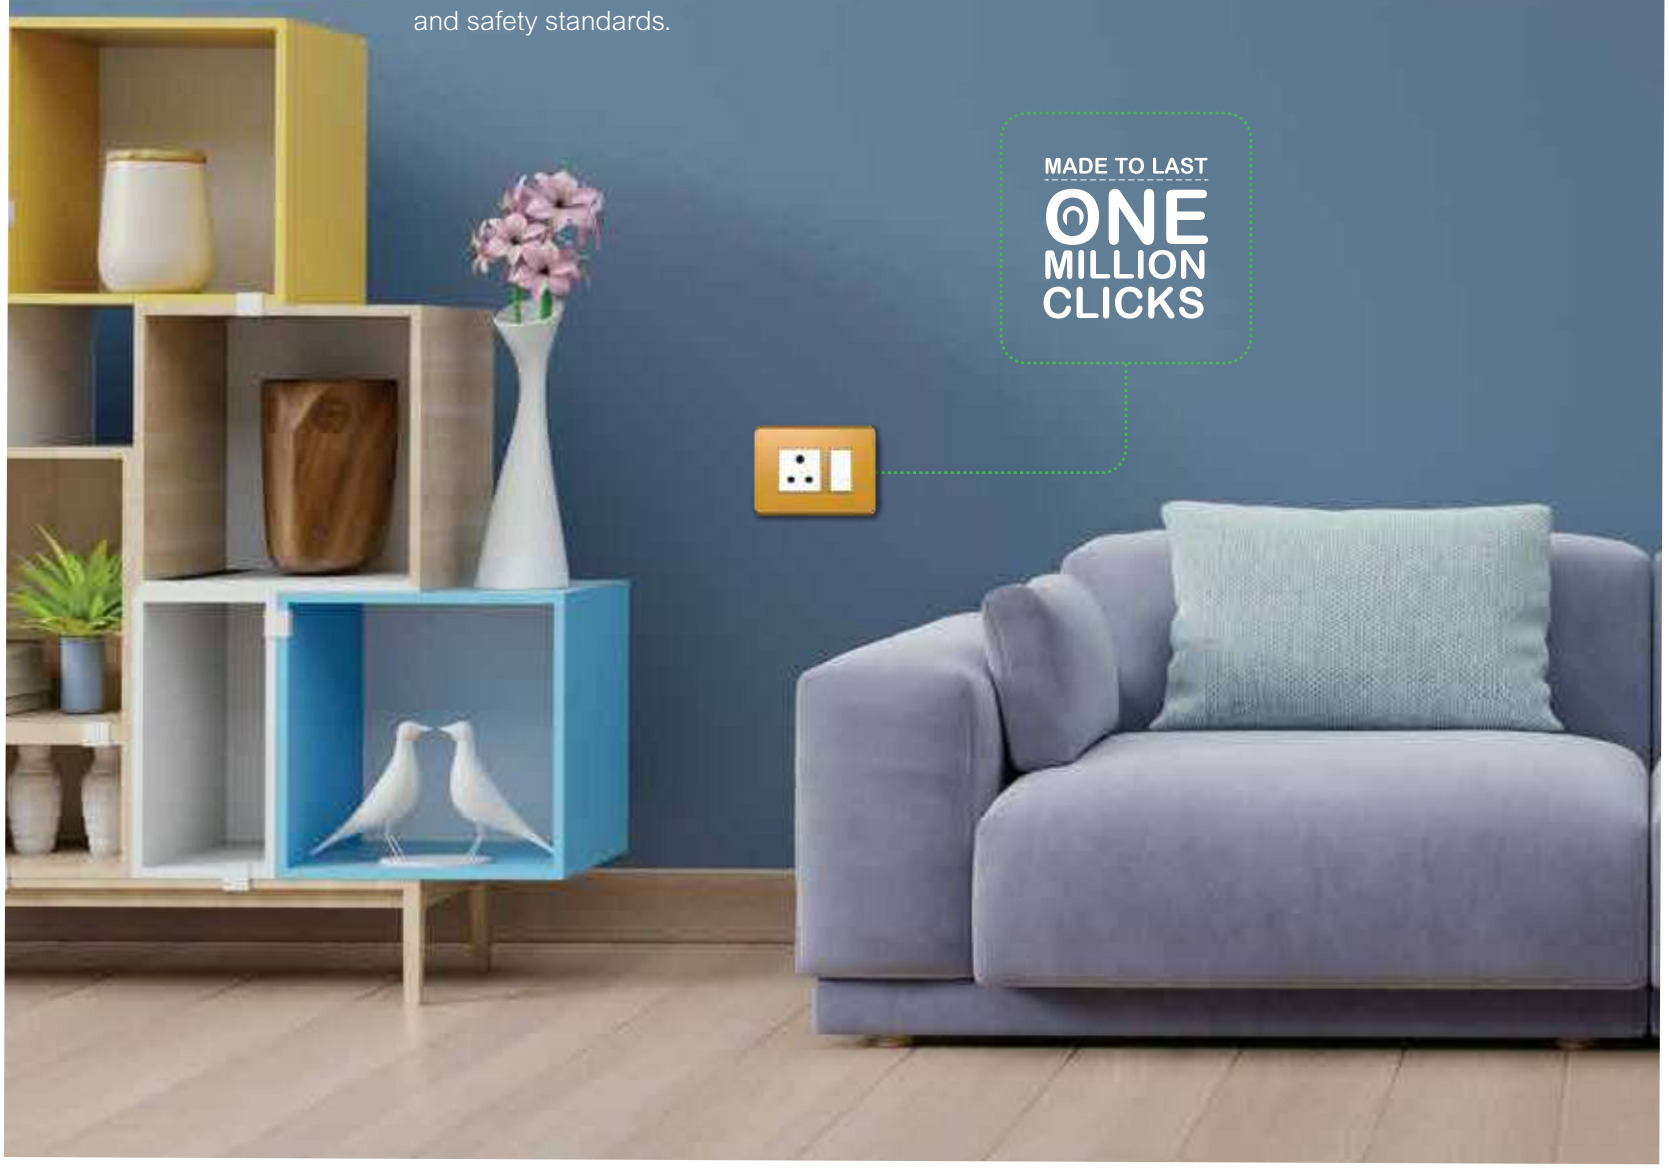
Quality that's a class apart

There are some innovations that change the direction of our time. They define the standard to which the rest look up to. Clipsal X is that innovation.

Designed after intensive research and development, these switches go through 16 rigorous tests before they reach you. From heat resistance to anti-aging. From humidity resistance to shock resistance. We ensure to leave no stone unturned to deliver excellence with every click. We even go as far as guaranteeing the durability of a million clicks, because we know everyone promises quality only a few live up to it. So here's us wishing you a very warm welcome to higher quality and safety standards.



Bringing safety to every family

Schneider Electric has always aimed to innovate using the latest technology in the field and our digital solutions in energy and automation increases efficiency, safety and sustainability.

Say hello to the latest version of

Clipsal X, India's first antiviral switches.

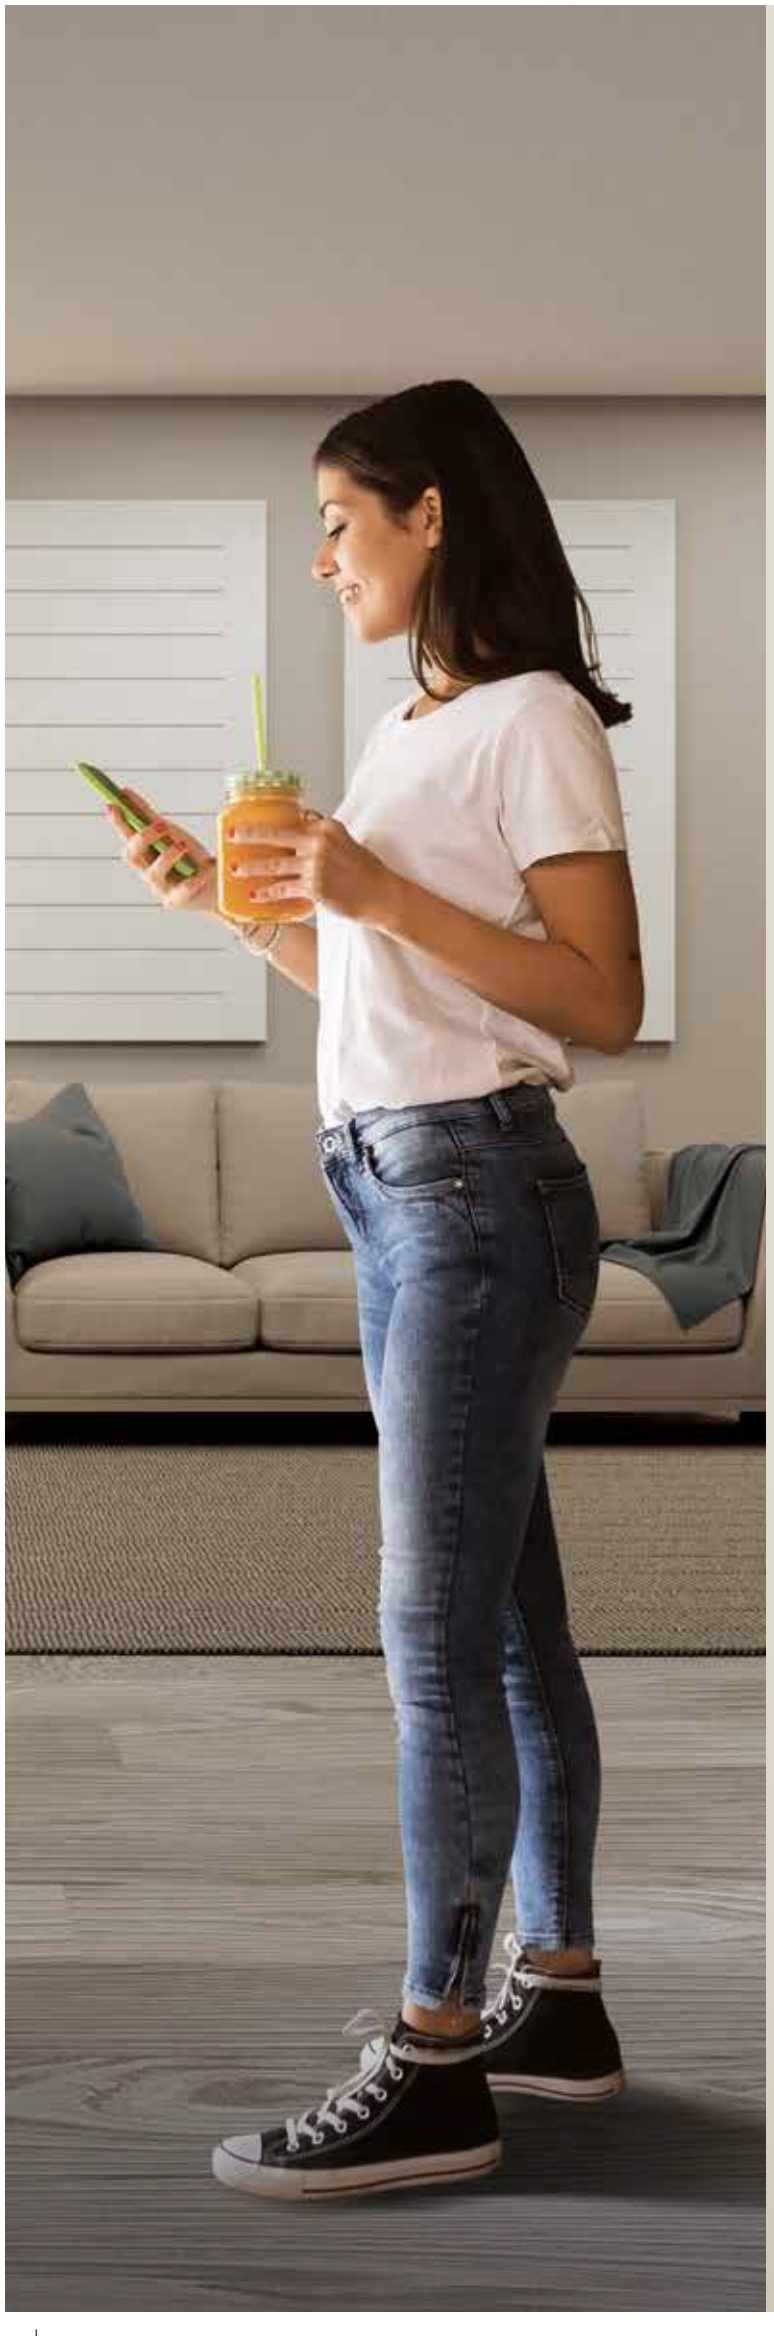
Developed using the state of the art technology, these switches are designed to ensure highest safety in our everyday lives. And when you take all that safety and quality, add elegance to its build, you've got something you just have to switch to.

Bringing style to convenience

Clipsal X switches are made with a contemporary sloped plate design to make them seamlessly blend with the wall. Clipsal X switches are not only stylish, but also functional. They are designed to last up to 1 million clicks. The switches are made from flame retardant and UV stabilized material to ensure added safety.

Clipsal X is also the softest sounding switch for unobtrusive switching. It comes with a large plate overhang to cover the imperfections in plastering or painting around. Clipsal X switches have a glossy band which provides ease to the user in cleaning the dust accumulated on the top of the plate.

Style, safety, convenience and longevity – Clipsal X has it all!



Bringing affordability to luxury

Designed for modern sensibilities, the colours of the Clipsal X range and its trendy dual-tone variants will complement the look of any home perfectly. What's more, the elegant wood, slate and leather textures with a satin finish to suit different styles of decor. Featuring USB charging points and international socket options, this is a switch range that has been designed for modern users, whether they are at home or at work. The Clipsal X range of switches also features IoT technology, which means that they can be controlled on the phone. That's not all, they are Alexa and Google Home compatible, which means they can also be operated by voice.

Xtra Style

- Vibrant and youthful colours and textured finishes that can stand out or blend in.
- Contemporary sloped design that blends seamlessly with the wall.
- Textured finishes to match most different styles of decor – Wood, Slate & Leather.

Xtra Strong

- Made to last for over 1 million clicks.
- 10A rated switches to enable Grouping – many loads can be added.
- UV Stabilized to avoid decolouring.

Xtra Comfort

- Noiseless clicking for unobtrusive switching.
- Smooth finish which avoids light reflection off the surface.
- Glossy Band making it easy to clean.
- Large plate overhang to hide wall and paint imperfections.
